

Lake Powell and Lake Mead Historical and Current Reservoir Data

David E. Rosenberg

This report was generated on: June 5 , 2026

Overview

This is an R Markdown document. The document generates plots for Lake Powell and Lake Mead:

1. Annual Lake Powell Release Compared to 7.5 and 8.23 Targets

Data wrangling strategy

1. Import the reservoir elevation-volume curves.
2. Import Daily, Monthly, and Annual Lake Powell and Lake Mead data from the Reclamation's HydroData Web portal https://www.usbr.gov/uc/water/hydrodata/reservoir__data/site__map.html
3. Filter the reservoir data for the appropriate variables/fields.

This is a beginning R-programming effort! There could be lurking bugs or basic coding errors that I am not even aware of. Please report bugs/feedback to me (contact info below)

Figure 1: Annual Lake Powell Release Compared to 7.5 and 8.23 Targets

Figure 1: Ten-Year Powell Release Compared to 10-year Targets

Table 1: Current Storage and Elevations

[1] "Reservoir Data on: June 5 , 2026"

A tibble: 2 x 3

Groups: ResName [2]

	ResName	Storage	Pool Elevation
	<chr>	<dbl>	<dbl>
1	Lake Powell	5.71	3528.
2	Lake Mead	7.60	1049.

Figure 3: Lake Powell, Lake Mead, and Combined Storage

Figure 4: Lake Powell Storage vs Lake Mead Storage
